Metrocrest Services Accepts Al and Vera Jordan Lifeline Fund

On December 7th, the Metrocrest Medical Foundation Board transferred the *Al & Vera Jordan Lifeline Fund* to local nonprofit agency Metrocrest Services. The fund was established in 1983 to provide the Philips Lifeline™ medical alert service to seniors and ensure access to emergency medical assistance without financial burden.

“Our Board voted to identify a compatible nonprofit to manage these funds originally entrusted to our agency,” explained Cia Bond, Metrocrest Medical Foundation Executive Director. “After careful review we selected Metrocrest Services based on their forty-year record of service to the community, their past relationship with the Metrocrest Medical Foundation, and their wide range of existing programs for seniors.”

The scope of the endowment will be expanded to include support of other safety and security programs for seniors available through Metrocrest Services including home-delivered meals, transportation, food distributions, wheel chair ramp installations, and minor home repairs. All services provided by Metrocrest Services are available to qualifying individuals living in Carrollton, Farmers Branch, Addison, Coppell and the city of Dallas in Denton County. Last year the agency assisted 903 residents over the age of 60.

“As a nonprofit we’re committed to supporting independent and safe lives for older adults,” noted Tracy Eubanks, Metrocrest Services CEO. “We’re honored to ensure the Jordan family’s legacy continues to reach those in need.”

Metrocrest Services is a 501(c)(3) nonprofit providing programs for families and seniors that foster independence and lead to self-sufficiency. For more information, contact Tracy Eubanks, CEO, at 972-446-2101 or visit www.metrocrestservices.org.
