

Sunita Koshy-Nesbitt, M.D., M.B.A.

A cardiac electrophysiologist, Dr. Sunita Koshy-Nesbitt MD, MBA serves as the chief medical and quality officer for the Texas Health Physicians Group at Texas Health Resources as well as the chief quality officer of the Hospital Channel at Texas Health Resources. In her Hospital Channel role, she oversees quality outcomes, infection prevention, regulatory operations, as well as quality review and accountability related to all value-based purchasing and public reporting programs. In her physicians group role, she has oversight of patient safety and risk management, clinical performance, quality outcomes, professionalism and well-being. Texas Health Resources provides 420 access points including 29 hospitals and over 1300 providers serving communities across North Texas.

In her prior experience, she served as SVP and chief population health officer for Southwestern Health Resources Clinically Integrated Network (SWHR CIN), which was established by the UT Southwestern Medical Center and Texas Health Resources to optimize care for patients in North Texas. At SWHR CIN, Dr. Koshy-Nesbitt was responsible for strategies, technology and operations designed to advance value-based healthcare for quality improvement and clinical effectiveness. Based on quality and cost, she helped lead the organization to the No. 1 ACO in the United States, participating in the Centers for Medicare & Medicaid Services (CMS) most aggressive payment model, the Next Generation program, for 3 years in a row (2017-2019).

She is currently a board member and previous President of the American Heart Association Dallas Board of Directors over the years 2019-2021.

Prior to her roles as a physician leader, Dr. Koshy-Nesbitt was a practicing electrophysiologist in the community. She completed her training in internal medicine, and served as chief resident for an additional year, at the University of Maryland Medical Center in Baltimore. She then went on to complete fellowships in both general cardiovascular diseases and clinical cardiac electrophysiology at the UT Southwestern Medical Center. Additionally, Dr. Koshy-Nesbitt earned a master's degree in Healthcare Management and Administration from the Naveen Jindal School of Management at UT Dallas, where she is currently an adjunct executive professor.
